Skills

Android: Kotlin, Java, Jetpack Compose, XML Views, MVVM, Multi-module Architecture, Hilt/Dagger, Coroutines/Flow, Room, Retrofit, WorkManager
Android Platform & Hardware: AIDL/Android IPC, Accessibility Services, USB Host API, Serial/RS-232, Bluetooth, JNI/NDK, ESP32 Firmware
On-device AI: Gemma 2B, Whisper (speech-to-text), LLM Agents, TensorFlow, Computer Vision
Cross-platform & Other: Flutter/Dart, Rust, Swift/iOS, Python, Spring Boot, Firebase, AWS, Docker, Jenkins
Domain: Banking Kiosks & Peripherals, UPI, Card & Cash Transactions, AEPS, IMPS, Micro ATM, e-KYC, e-Sign, e-NACH

Experience

Abstract Layers Navi Mumbai, Maharashtra
Mobile Frontend Lead June 2025 – Present

- **Team Leadership:** Lead a **5-member** engineering team at Abstract Layers, and led a **4-member** team onsite at Hitachi Payments to deliver the DBU platform.
- **Hitachi Digital Banking Unit (DBU):** Worked onsite with **Hitachi Payments** to architect and hands-on build every module of India's pioneering Android-based DBU, now live at **Axis Bank (10+ sites)** and **Slice (5+ sites)** with more banks rolling out; showcased DBU 1.0 at **GFF 2025** and DBU 2.0 at **GFF 2026**. Built in Kotlin and Java with a multi-module MVVM architecture.
- **On-device Conversational AI Agent:** Built the DBU's AI agent end to end, running **Gemma 2B** fully on-device with local **Whisper** speech recognition in **English and Hindi**, and an **Android Accessibility Service** that navigates the UI to complete Savings Account, Credit Card, Cheque Deposit and Passbook Printing journeys by voice or text.
- **DBU Hardware R&D & Android SDKs:** Led first-of-its-kind R&D to bring banking peripherals to Android where no vendor support existed, building custom SDKs over USB, serial, Bluetooth and JNI/NDK, including a **cheque deposit SDK** for **Reiner** (Germany) cheque scanners, which had no Android SDK. Designed the DBU's device service layer on **AIDL**, with dedicated services for **9 device types**: document, cheque, passbook and receipt printers, **Evolis** card printers, cheque deposit units, document scanners, fingerprint scanners and POS devices.
- **SideCar Kiosk & Instant Card Delivery:** Designed and deployed the SideCar self-service kiosk in production across **7 banks**, powering instant credit and debit card issuance; showcased at GFF 2026. Wrote the **ESP32 firmware** controlling all kiosk hardware: motor-driven card dispensing, LEDs and peripherals.
- **Multi-Bank CRM & DBU-CRM Vault:** Led the architectural overhaul of the Android CRM into a configurable engine deployed across **15+ banks** including **SBI**, **Axis** and **Slice**, handling UPI and card transactions, cash deposits and withdrawals, account opening and government scheme enrolment. Engineered a secure Vault integration between CRM and DBU that removed cashier dependency, enabling Slice to process **INR 30+ lakh** in monthly deposits and withdrawals.
- **Rust Telemetry SDK:** Architected an embeddable telemetry SDK in **Rust** for Windows, Linux, macOS, iOS and Android that vendors integrate into their own apps and websites for centralized device operations, remote push notifications and real-time health monitoring; in pilot with Abner and other clients.
- **Abner Partner Platform:** Built and led a **Flutter Web** B2B platform from scratch for Abner, a home and office lighting company, with Channel Partner, Key Account Manager, Lead Management and Order Tracking modules, moving Abner's **entire** manual sales and partner operations onto the platform.

Fermion Infotech Navi Mumbai, Maharashtra
Sr. Mobile Application Developer/AI Developer July 2022 – May 2025

- Developed a Liveness Detection SDK using image processing and TensorFlow models, enabling sub-minute identity verification with **95%** accuracy, reducing fraud and accelerating user onboarding.
- Led development of an LLM-powered chatbot for **Sony's *Shark Tank India*** covering episodes, contestants and deals, and a custom LLM-based **ATS** that automated **90%** of contestant screening.
- **Onsite at client DGV:** Designed and developed **DGV Connect**, a Play Store marketplace app for dairy farmers combining livestock management with financial services, driving a 70% increase in digital adoption among **80,000+** farmers.

- Developed **DGV Money**, a loan-processing SaaS with Aadhaar e-KYC, e-Sign and e-NACH and offline support for **HDFC**, **Federal**, **Kotak** and **Karnataka Bank**, handling **5,000+** loan applications monthly; showcased to the Finance Minister and RBI Governor at **G20** and at **Global Fintech Fest**.
- Built **DGV Pay**, a payments app deployed on **5,000+ POS** devices across multiple states with Card, AEPS, IMPS and Micro ATM transactions.
- Developed the **DGV Digital Bovine Insurance** platform, using TensorFlow models for cattle identification and body measurement to cut claim processing time by **80%**.
- **Client Utkarsh Small Finance Bank:** Built and maintained the bank's **U-Instant** customer onboarding app and agent-facing **DigiOnBoarding** app in Flutter, onboarding **20 lakh+** customers.
- Mentored 5 junior Android developers at DGV through weekly code reviews and knowledge-sharing sessions.
- Created an open-source CLI toolkit with project templates for Hilt, Dagger, Flutter-Bloc and Flutter-Provider architectures, cutting project setup time by **80%**.

Freelancer Thane, Maharashtra
Full Stack Developer Jan 2021 – July 2022

- Built and launched **Heaven**, a mental health-focused social platform, using Flutter, Spring Boot and AWS, with CI/CD pipelines on Docker and Jenkins automating testing and deployment.
- Developed and deployed a custom payroll and staff management system for a local business, reducing payroll processing time and improving record accuracy.

Herten Technologies Navi Mumbai, Maharashtra
Junior Software Developer Aug 2020 – Jan 2021

- Maintained and resolved critical bugs in **Bada Business's** CodeIgniter-based CMS, ensuring stable operations for **50,000+** users.
- Designed and deployed a school management SaaS using Laravel, integrating AWS Elasticsearch, RDS and S3.

Education

Mulund College of Commerce Mulund, Maharashtra
BSc in Information Technology — GPA 8.83 Jun 2017 – Nov 2020
